

THE DIAMOND TEAM – BNB BANK ROLL

OVERVIEW

My Diamond Team – BNB Defi Project is decentralized community support fund built on BSC blockchain and smart contract technology.

The My Diamond Team Smart Contract is designed to provide everyone with an independent, financial support fund, based on Smart Contract technology, surrounded, and supported by multiple services including DEFI and online gaming.

Any participant can contribute BNB towards the community fund and support the community members, the participant will now activate the contract code and will start to receive support back from other community members.

It is 100% decentralized and a community-based project; Meaning that there are no guarantee nor additional profits made in the project alone, all that you receive from the project is received from other community members and based upon your own and the community efforts as this is a P2P support model.

You support others and others support you back.

My Diamond Team can be viewed as a decentralized “third party” which insures complete fairness, transparency, and justice for all according to the algorithm code.

There are no mediators or intermediaries, no owners, no company, no CEO, and no human interaction, which is effectively guaranteeing the fairness of all participating partners and partners funds according to the rules of the Smart Contract.

It is the most reasonable, safest, and best cutting-edge financial SUPPORT model available currently.

HOW TO START

You can participate in the My Diamond Team Project by depositing a minimum of 0.1 BNB to the Fund, you are now eligible to receive 365% back.

The 365% is returned in 4 ways (1 passive and 3 via marketing/invites) and when the 365% is accumulated through any of the 4 ways, you can reinvest or make new deposits from your earnings to increase your daily 1.5% rate per day and your 365% total income.

1. 1.5% Daily return on your Deposit, 100% Passive.

2. 5% Direct Referral Commission for Sharing and Growing the Community Fund.

3. Matching Commission on Partners Daily Income every time they make a WITHDRAWAL.

Level 1 - 5 = 10% commission per downline withdrawal.

Level 6 to 10 = 7% commission per downline withdrawal.

Level 11 to 15 = 5% commission per downline withdrawal.

* 1 new level is activated for each direct partner, maximum 15 levels, see above.

Quick breakdown on how commission level: Address 1 refers Address 2 (level 1 of Address 1) Address 2 refers Address 3 (level 1 of Address 2, level 2 of Address 1) Address 3 refers Address 4 (level 1 of Address

3, level 2 of Address 2, level 3 of Address 1) and so on...

* 1 new level is activated for each direct partner, maximum 15 levels, see above.

4. Daily Top Referrer Pool 3%, of ALL Deposits set aside in pool, every 24 hour 7% of the pool is shared among top 4 sponsors in volume.

Pool Distribution: Top 1 - 2.5%, Top 2 - 2.0%, Top 3 - 1.5%, Top 4 - 1.0%

5. 8% of deposits used for tech support, server fees & bandwidth. 2% of deposits used for marketing, operation & airdrops.

6. Minimum deposit to join is 0.1 BNB which will give you 0.365 total income that you'll earn over time. A Maximum of 25 BNB total deposit per wallet is also implemented.

7. User can withdraw their payout every time. It will be accumulative, once 24hrs has passed then you will receive a total of 1.5% income.

8. Re-invest function is also implemented so user will not have to withdraw and then re-deposit their earnings for them to increase their potential long-term earnings. Re-invest action will compound all the user earnings from daily payouts, direct referrals, pool payouts, and match bonuses. Re-investing your daily earnings will increase your 365% total payout and will give you a long-term income. There is also a bonus of 5% per re-investment to incentivize our investors.

9. Team. For every referral, a new team will be created(referral team) and the referrer address will be assigned as the team owner, there is no limit of members per team, a team will consist of the 1st upline of all the users direct referrals. The team owner can also change the name of his team by inputting his team id and assigning a new name.

10. Airdrops, our project has 2 types of airdrops 1st is the Direct Airdrop, where the senders can transfer funds to an address in which will be directly deposited as an investment to the receiving address, 2nd is the team airdrop which will divide the amount to be airdropped across all members of the referral team equally and will also be directly deposited as additional investments. This, will ensure the longevity and sustainability of the project since all amount will go to the contract and will serve as new investments for every receiving address.

11. Nicknames, each user invested in the project can assign a nickname for them, and this nickname can be used in exchange for their referral link instead of giving out their address. This will ensure some safety from the investors who are not comfortable on giving out their wallet addresses and also a fun feature to have In the project which they can have the name they wish to have. (bbshark69 sounds cool right 😊)

Withdrawal Taxes

Withdrawal tax in My Diamond Team's Defi Application is percentage based, meaning that the taxes per withdrawal will be based on how many percent of it is in the contract. See breakdown of fees below:

- 0% tax if amount is < 1% of contract balance
- 5% tax if amount is >= 1% of contract balance
- 10% tax if amount is >= 2% of contract balance
- 15% tax if amount is >= 3% of contract balance
- 20% tax if amount is >= 4% of contract balance
- 25% tax if amount is >= 5% of contract balance
- 30% tax if amount is >= 6% of contract balance
- 35% tax if amount is >= 7% of contract balance
